WATER PUMPS HAVE EVOLVED

DAB[®]
WATER • TECHNOLOGY

**DAB pumps have been sold
and serviced in Australia for
over 30 years.**

MADE BY PEOPLE FOR PEOPLE

DAB invests and believes in its workforce; in particular the contribution that each single person can give in terms of skills and know-how. Each single employee of DAB is part of the company, each single employee of DAB is the company itself.

RESPONSIBILITY

We believe that the safeguard of the environment is possible not only through eco-friendly products, but most of all thanks to responsible individuals. This is why we try to come up with reduced consumption products, working on projects with a low environmental impact, selecting partners and suppliers consistent with our ethics, and implementing green codes of conduct to increase the awareness in all those working at DAB of the importance in reducing waste and in respecting the environment, starting from the most trivial daily activities, both within and outside the company.

or small residence

NEW

UP TO
\$130

SAVINGS PER YEAR*
ON ELECTRICITY BILLS

Up to 3 floors, 2 bathrooms and 50m² of garden

e.sybox mini ³

e.sylINE, a complete line of electronic booster pump solutions that redefines the rules of residential water pressurisation. With two models, e.sylINE is a series of fully integrated pump systems and accessories. Designed to create a modular and flexible solution that meets a wide range of applications: from a small residence to a large complex of apartments.

UP TO
\$275
SAVINGS PER YEAR*
ON ELECTRICITY BILLS

Up to 6 floors - Max 9 apartments

GARDENING AND IRRIGATION

REUSE OF RAINWATER

e.sybox mini³

ONE OF A KIND

A unique appearance to any other booster set, a small package and completely integrated. Once you install and use it, you realise that the real difference is in the ease-of-use and performance.

e.sybox mini³ uses the most advanced DAB technologies to create constant pressure according to the system demands and thus an optimisation of energy consumption.

Suitable for use with potable water, in domestic systems and gardening applications.

The new 3-rotor model ensures further noise reduction and energy consumption.

Managing the water pressure in your home has never been so simple and quiet.

* where permitted by law

OVERVIEW

CONSTANT PRESSURE

FOR MAXIMUM COMFORT

Thanks to inverter technology, once you have set the desired pressure, e.sybox mini³ maintains a constant pressure to all the water outlets served.

ULTRA LOW NOISE

DESIGNED FOR RELAXATION

The special water cooled motor, the inverter, the sound absorbing hulls, and the anti-vibration legs make the e.sybox mini³ booster set the second quietest booster pump on the market after it's big brother e.sybox.

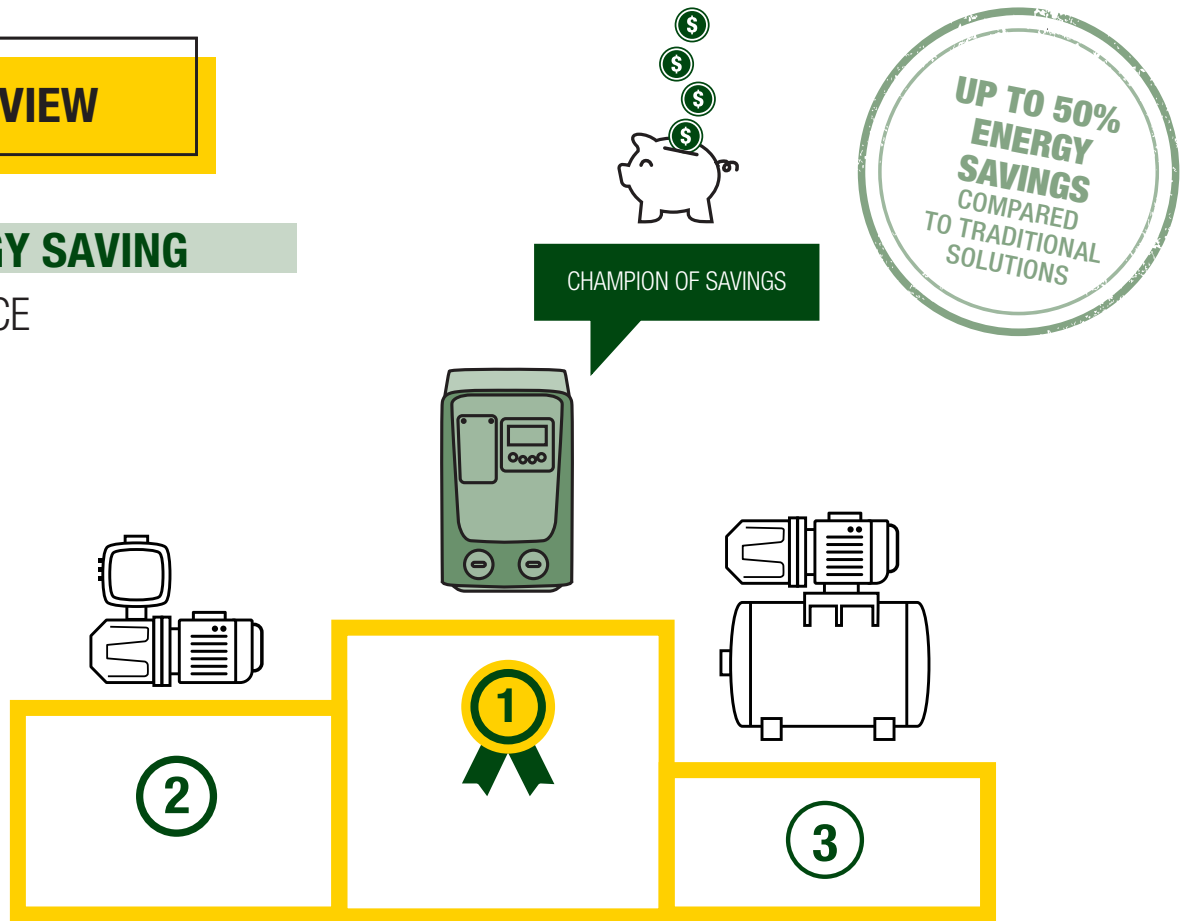

*sound pressure measured at 1 meter distance in a free field

OVERVIEW

ENERGY SAVING

IN FIRST PLACE

Guarantees the comforts and savings of constant pressure (Set Point adjustable from 1 to 5.5 bar) in the system and up to 130 dollars a year* savings on energy bills thanks to the inverter technology.

*compared to a traditional booster set in terms of medium usage conditions.

MINIMUM FUSS

MAX COMPACTNESS

The new component architecture and ergonomic design make e.sybox mini³ so compact that it can be installed in any environment, even under the kitchen sink.

e.sybox mini³

OVERVIEW

INTERGRATED

ALL IN 1

Once the suction and delivery pipes are connected, e.sybox mini³ doesn't require any additional components for its installation and operation.

DISPLAY

EASY ADJUSTMENT

LCD 70x40 mm high-resolution screen, adjustable to adapt the readability at various installations. The intuitive interface gives access to all the system information and the main settings depending on the specific application.

ready

D+CONNECT

WIRELESS

ON BOARD

Thanks to the integrated wireless capability, e.sybox mini³ can be connected to the Internet.

MAXIMUM VERSATILITY

3 INSTALLATION POSITIONS

Horizontal, vertical or wall mounted, e.sybox mini³ can be installed virtually anywhere inside or outside the home.

▶ HORIZONTAL

▶ VERTICAL

▶ ON THE WALL with e.sywall

▶ OUTSIDE with e.sycovers

e.sybox mini³

DIMENSIONS ARE IMPORTANT

FEATURES

MOTOR

Special water cooled motor design eliminates noise generated by traditional fan cooling.

INVERTER

Thanks to the inverter technology, e.sybox mini³ absorbs only the necessary energy required, increasing the economic savings.

NON RETURN VALVE ON DELIVERY

Easy to remove for routine maintenance operations.

CONNECTIONS - FLEXIBILITY OF INSTALLATION

Allows you to choose which system inlets and outlets to use depending on your installation needs.

TECHNICAL COMPARTMENT

Easy access to the expansion tank air valve adjustment and the non return valve for quick cleaning or maintenance.

1 LITRE EXPANSION TANK

Guaranteed for 5 years without any maintenance requirements. Certified for drinking water.

FLOW AND PRESSURE SENSORS

Electronic pressure transducer and integrated flow sensor.

ANTI-VIBRATION FEET

Guarantees effective absorption of vibrations helping e.sybox mini³ to further reduce the operation noise.

WIRELESS

ANTIFREEZE PROTECTION

e.sybox mini³

e.sybox

THE FIRST OF ITS KIND

We didn't just limit ourselves on improving what was already there! Instead we were the first to achieve a revolutionary innovation in water pressure boosting. We have developed a patented booster set with high performance and increased efficiency. Compact design that is simple to install, maintain and operate. Maximum satisfaction for the installer and end user.

E.sybox has changed the way in which people use our most important resource, water.

E.sybox is also smart and versatile. You can create multi pump systems by grouping two or up to four pumps together. This has never been so easy, thanks to the fast connection station e.sytwinn and the integrated wireless connection.

▶ OUTSIDE with e.syccover

EFFICIENT HIGH PERFORMANCE

FEATURES

MOTOR

Special water cooled motor design eliminates noise generated by traditional fan cooling.

INVERTER

Thanks to the inverter technology, e.sybox absorbs only the necessary energy required, increasing the sensitive economic savings.

NON RETURN VALVE ON DELIVERY

Easy to remove for routine maintenance operations.

CONNECTIONS - FLEXIBILITY OF INSTALLATION

Allows you to choose which system inlets and outlets to use depending on your installation needs.

TECHNICAL COMPARTMENT

Easy access to the expansion tank air valve adjustment and the non return valve for quick cleaning or maintenance.

2 LITRE EXPANSION TANK

Guaranteed for 5 years without any maintenance requirements. Certified for drinking water.

FLOW AND PRESSURE SENSORS

Electronic pressure transducer and integrated flow sensor.

ANTI VIBRATION FEET

Guarantees effective absorption of vibrations helping e.sybox to further reduce the operation noise.

WIRELESS

ANTIFREEZE PROTECTION

ACCESSORIES

MODULARITY IN FIRST PLACE

The innovative range of e.sylite accessories, which further increases the possibilities of installing an e.sybox booster set, is now the most versatile and innovative on the market. A suite of integrated solutions that cover all of your needs in terms of performance and conditions of use.

Quick connect base

e.sydock

Complete docking station for e.sybox with all the necessary interfaces for connection to the system including anti-vibration feet.

Thanks to 4 possible hydraulic configurations, installation becomes even more rapid and flexible. In case of maintenance, e.sydock allows the quick disconnection of e.sybox helping to reduce maintenance down time of the system.

Quick connect station for groups with two e.sybox units

e.sytwin

E.sytwin offers outstanding performance with the ability to combine operations, with reduced dimensions of 50% compared to any other equivalent traditional system. E.sytwin allows you to fully exploit the potential of e.sybox in the creation of sets with two pumps.

e.sylite

Water storage tank ready for use

E.SY TANK

480 litre tank provided with e.sydock for quick installation. It is suitable for potable water and is equipped with a filling valve from the water supply (complies with UNI EN 1717), with AG type overflow system, suction hose with bottom valve and discharge hose.

The tank is suitable for installation above ground and the four slots on the base facilitate fixing to the ground. It is equipped with direct discharge from the tank.

The system is modular with the ability to install additional tanks on three sides (laterally and to the rear).

Wall installation

E.SY WALL

Complete wall mounting kit with brackets, screws, dowels, and two spacers for shock absorption. Suitable for both e.sybox and e.sybox mini³.

Insect grills

E.SY GRID

Suitable for vertical or horizontal installation. Included as standard for both e.sybox and e.sybox mini³.

Outside installation

E.SY COVER

Suitable for both e.sybox and e.sybox mini³.
